

RETHINK WASTE WITH RESOURCE

We are inviting the City of Hobart community to rethink waste into a valued resource by joining us for a free tour or talk in 2024.

How can we reduce our waste?

JOIN US FOR A TOUR where we will take you behind the scenes of what the Resource Work Cooperative does to reduce waste going to landfill, from the McRobies Waste Management Centre to our shop and all our work areas in between. We'll showcase current waste challenges in the City of Hobart, and demonstrate how everyone can help reduce waste through refusing, reducing, reusing, refurbishing, repurposing and recycling.

INVITE US TO YOUR ORGANISATION OR EVENT FOR A TALK where we will share the story of the Resource Work Cooperative and the power of community in tackling waste. We'll talk with you about our humble beginnings, and how we've grown to help reduce waste in the City of Hobart and beyond.

Our free Rethink Waste with Resource program is only available to City of Hobart based businesses, schools, not for profits and groups of community members.

To make an enquiry and secure your spot visit our website: www.resourcetipshop.com/education or scan the QR code.
